

ADAMSTOWN HOUSING

Adamstown Castle is a “Cradle to the Grave” community, with the first phase of 650 dwellings incorporating a wide variety of dwelling types , from 4 bedroom family houses to 1 bed room corner apartments.

The built environment is distinctly different from neighbouring housing , with three to four storey street edges extensively landscaped “pocket” parks, high quality finishes to buildings and accesses, and the imminent arrival of a rail station, primary schools and a leisure complex, which were in place within six month of completion.
